

# CPD Webinar Design and Technical Requirements of Hot Water System

## PROGRAMME HIGHLIGHTS

Most of the energy consumed in plumbing and water supply system is not only pumps and transfer, but also various kind of energy to maintain water temperature, especially hot water system, for hotel accommodation, residential, institutional, public buildings and etc.

In this seminar, should like to share with professional in the industry on the hot water system, especially: -

- Centralized hot water system Planning and design considerations
- Operation theory and principle
- System components and their application
- Sustainability design feature to enhance efficiency
- Safety consideration

**Ir Ben YUEN**

(Technical Advisory of CIPHE  
/ Technical Director of WSP)

Ir Ben Yuen is now working in a Building Services Consultant firm WSP (Asia) Ltd in a title of Technical Director. He has over 25-year experience in the Building Services industry and he is an expertise in the field of system design for Plumbing and Drainage Installations, swimming pool and other hydraulic system and project coordination. His project experience covered the regions of Hong Kong, Macau, Mainland China and oversea, and also include all type of commercial, residential, hospital and institutional development. Ben hopes to share his practical experience on plumbing design and keep the industry in motivation for onward improvement.

## CIPHE REPRESENTATIVE

Technical Chair - Mr. Michael KWAN  
Mr. Wayne TSE

11 December 2023 (Monday)

6:00 pm (Registration)  
6:15pm – 8:15pm including Q&A

300  
(Registration is on first come first reserved basis)
